## CHAPTER 1

# INTRODUCTION

BabyCare is created on the understanding that quality family care is both a fundamental human need and a key driver of economic growth and empowerment. When children receive quality care in their critical formative years, they are on a path to achievement and success. Women disproportionately shoulder caregiving responsibilities, but when they have supports in place that enable them to work, our economy grows.

BabyCare offers of an array of services that enable families to find, manage and pay for care and provide employment opportunities for caregivers. These include a robust suite of safety tools and resources, easy ways for caregivers to be paid and obtain professional benefits, household tax and payroll services for families, and customized corporate benefits packages covering all child care needs.

- For families, our digital platform provides a simple, comprehensive solution for finding, managing, and paying for family care needs including child care related services.
- For caregivers, we provide a platform for finding high quality jobs, as well as access to benefits that can lead to sustainable, meaningful careers.

# 0 4

## CHAPTER 2 TECHNOLOGY USED:

### SIMPLE SOLUTIONS FOR COMPLEX INTEGRATIONS

*The next step is to include what metrics (technologies) has made our website unique. Below are some metrics we have included:*

1. HTML
2. CSS
3. FRAMEWORK - BOOTSTRAP
4. JAVASCRIPT
5. JQUERY
6. PHP
7. MYSQL
8. LARAVEL

# 05

## CHAPTER 3

# BABYCARE

## MODULES

- **Home** - We have provided an option to find a caretaker and be one, by filling a form from our homepage. But keep in mind that there is a proper selection process to be a care taker. Apart from that, it connects to all the other pages of our website including the search page, about us page and contact us page.
- **Join** - There is a join page in our website which allows you to find a caretaker and be one.
- **Become a Caregiver** - This link will take you to a form where you have to fill the personal details like first name, last name, contact no., email address, residence details, etc. and can submit it. The form is properly validated using PHP.
- **Find a Caretaker** - This page will take you to a form where you can fill all the details including which type of service you need. You can book the time slot accordingly and can ask for the background details of your care taker.
- **About Us** - This page gives an overview of the website background and the details about the team. A brief introduction including vision and mission of the website is available on the page. It describes how the website is creating job opportunities and at the same time how it is securing futuristic economic growth.

## CHAPTER 4

# HOME PAGE

The screenshot shows the BabyCare.com homepage. At the top, there is a navigation bar with links for Baby Care, Home, Become a Caregiver, and Join. A search bar is also present. The main header features the text "FIND TRUSTED CAREGIVER FOR YOUR EVERYDAY NEED" over a background image of a family. Below this, a call-to-action says "To get started choose an option." Two boxes are shown: one for "Child Care" (with a smiley face icon) and one for "Become a Nanny" (with a hand icon). Both boxes contain descriptive text and a blue "Find Caretaker" or "Get Started" button. The bottom section highlights "TRUST AND SAFETY ARE OUR PRIORITY" with a circular icon of two hands. It also mentions "Every caregiver completes CareCheck", "Screening tools at your fingertips", and "See caregiver reviews from families". The footer contains sections for "FOOTER CONTENT", "IMPORTANT LINKS" (Home, About Us, Contact Us), and "QUICK LINKS" (Find Care Taker, Become Care Taker).

## FIND A CARETAKER

The screenshot shows a web application interface for finding a caretaker. At the top, there is a navigation bar with links for Baby Care, Home, Become a Caregiver, and Join. To the right of the navigation bar are two buttons: a white "Search" button and a green "Search" button.

The main form is titled "Personal Details" and contains fields for First name, Last name, Contact Number, Email (Sahilvermafast@gmail.com), and Password (\*\*\*\*\*). Below this is an "Address" section with fields for Street (1234 Main St), Apartment, studio, or floor, City, State, and Zip-Code.

Under "What kind of care are you looking for?", there is a field for Nannies & Babysitters. Below that, under "How soon do you need someone?", is a field for Right Now. At the bottom of the form is a blue "Submit" button.

## ABOUT US

Baby Care Home Become a Caregiver Join

**BabyCare.com** offers an array of services that enable families to find, manage and pay for care and provide employment opportunities for caregivers. These include a robust suite of safety tools and resources, easy ways for caregivers to be paid and obtain professional benefits, household tax and payroll services for families, and customized corporate benefits packages covering child care and senior care services.

For families, our digital platform provides a simple, comprehensive solution for finding, managing, and paying for family care needs including child care, senior care, special needs care, pet care, housekeepers and tutors. Additionally, Care.com HomePay provides peace of mind by managing household payroll and taxes for families who employ caregivers.

For caregivers, we provide a platform for finding high quality jobs, as well as access to benefits that can lead to sustainable, meaningful careers.

Our enterprise solution, BabyCare@Work, helps companies provide care benefits to their employees, making it easier to attract and retain talent and increasing productivity and reducing absenteeism and turnover.

**BabyCare.com** was founded with a conviction that human-centered technology and innovation can address real world social challenges—by enabling access to more efficient and affordable family care, and by facilitating quality jobs for the care workforce. By doing so, we are creating a care infrastructure that allows parents the freedom to integrate work and life, women to pursue more rewarding careers, care workers to achieve financial inclusion and stability, and employers to retain better talent and drive productivity.

## MVC REPORT

13

# DATABASE 1

The screenshot shows the phpMyAdmin interface for a MySQL database named 'caretakerdb'. The 'caretaker' table is selected. The table structure includes columns: fname, lname, phone, em, pwd, add1, add2, city, state, and pin. A single row of data is displayed:

fname	lname	phone	em	pwd	add1	add2	city	state	pin
Sahil	Soni	2147483647	Sahilvermafast@gmail.com	ASDFGHJKL;	1621/13 near anand school, katariya wali gali, jag...	abc	Hansi	HARYANA	125033

Below the table, there are buttons for 'Query results operations' including Print, Copy to clipboard, Export, Display chart, and Create view.

Figure 8.1 : Database to collect data of Caretaker

# MVC REPORT

14

## DATABASE 2

The screenshot shows the phpMyAdmin interface for the 'caretakerdb' database. The 'needcaretaker' table is selected. The table structure includes columns: fname, lname, phone, em, pwd, add1, add2, city, state, pin, service, and stime. The data grid displays three rows of information:

fname	lname	phone	em	pwd	add1	add2	city	state	pin	service	stime
Sahil	Soni	2147483647	Sahilvermafast@gmail.com	ASDFGHJKL	1621/13 near anand school, kataria wali gali, jag...	abc	Hansi	HARYANA	125033	Day care centers	Within a week
Kush	Sharma	2147483647	kushsharmafast@gmail.com	abc@123	12 ddf	dfkhv dafij	hansi	haryana	125033	Day care centers	Within a week
ashish	yadav	3468780	advyadav@gmail.com	agfk3242	32rds	asg45h3rb	hansi	haryana	125033	Special needs	Within a month

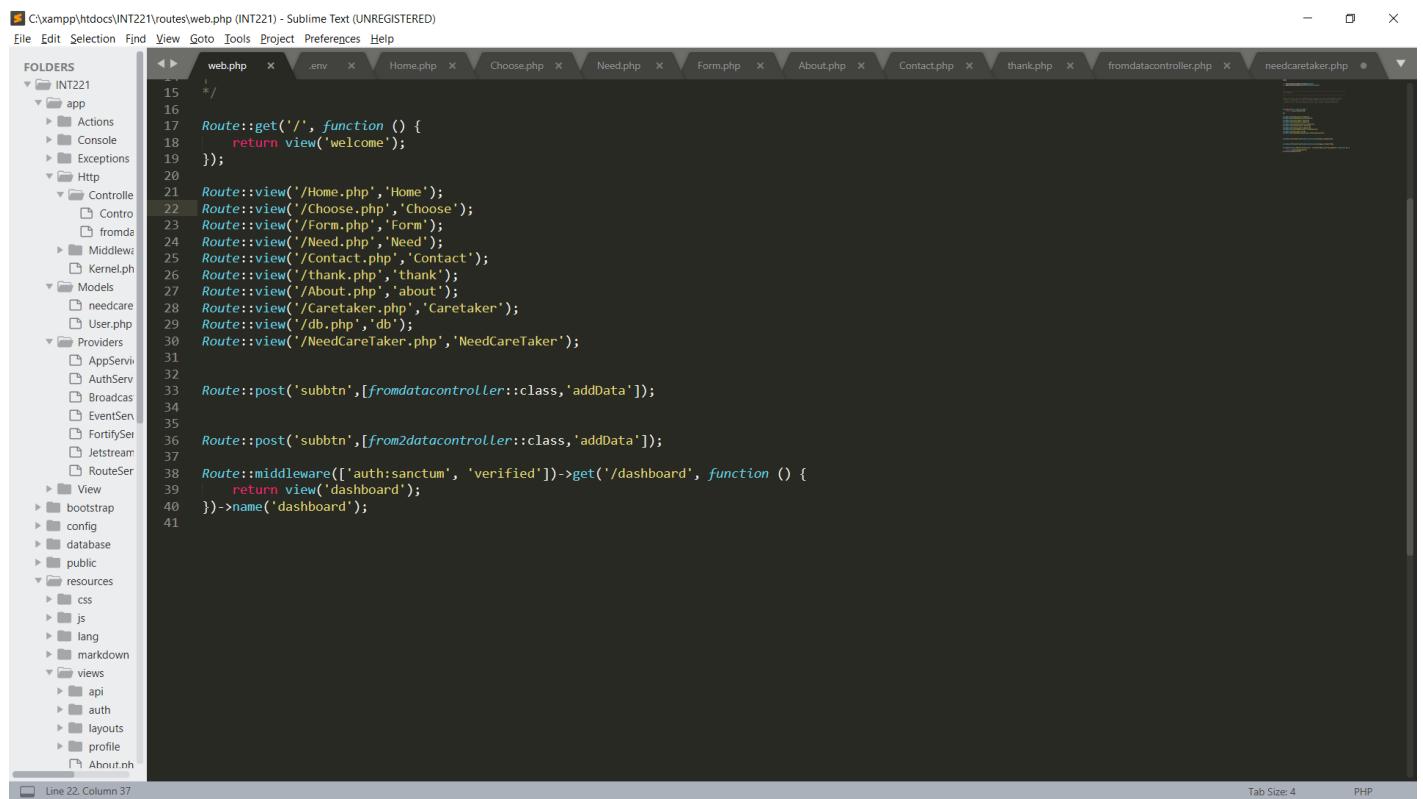

Below the table, there are buttons for 'Query results operations' including Print, Copy to clipboard, Export, Display chart, and Create view.

## CODE

The screenshot shows a Sublime Text window with multiple tabs open, including web.php, .env, Home.php, Choose.php, Need.php, Form.php, About.php, Contact.php, thank.php, fromdatacontroller.php, and needcaretaker.php. The left sidebar displays the project structure for a Laravel application named INT221, with folders for app, Http, Models, Providers, and resources. The web.php tab is active, showing the following PHP code:

```
1  /*
2  */
3
4  Route::get('/', function () {
5     return view('welcome');
6 });

## CODE

The screenshot shows a Sublime Text window with multiple tabs open, including web.php, .env, Home.php, Choose.php, Need.php, Form.php, About.php, Contact.php (the active tab), thank.php, fromdatacontroller.php, and needcaretaker.php. The Contact.php tab displays PHP code for a contact page. The code includes HTML for a form with a file input, CSS styles for a main div, and a footer section. The sidebar on the left shows the project structure with folders like INT221, app, Http, Models, Providers, View, resources, and views, along with various PHP files and configuration files.

# CODE

The screenshot shows a Sublime Text window with multiple tabs open, including 'thank.php' which is the active tab. The code in 'thank.php' is a PHP script with embedded HTML and CSS. It includes a Bootstrap-based navigation bar, a search bar, and a card section for displaying response details. The file also contains footer information and a link to the Home page.

## MVC REPORT

25

# CODE

A screenshot of a Sublime Text editor window. The title bar shows "C:\Users\enthu\Desktop\New folder\db.php - Sublime Text (UNREGISTERED)". The menu bar includes File, Edit, Selection, Find, View, Goto, Tools, Project, Preferences, and Help. The editor area contains the following PHP code:

```
<?php  
$con=mysqli_connect('localhost','root','','caretakerdb');  
if ($con==false) {  
    die("my Error is ". mysqli_connect_error());  
}  
?>
```

The status bar at the bottom shows "Line 11, Column 3" and "Tab Size: 4 PHP". The system tray shows icons for battery, signal, volume, and date/time (9:25 AM, 4/18/2021).
